```
How's it gonna feel until I catch you
                            tom:
                                                               How you gonna fail where she had in mind
Intro: D Bm
What you gonna do when it all breaks down?
Take another heart through the lonely town
                                                               Is a cross that you bear when it's cold
What you gonna do when she turns around
                                                               Why don't you leave me alone?
And says I never, ever thought that you'd be messing around?
                                                               ( D Bm )
But then you dance, dance, with the woman that let you
How's it gonna feel until I catch you?
What you gonna do when she turns around
                                                               What you gonna do when it all went down
And says you broken another heart that was broken down
                                                               Chasing another heart, Just little woman
It's a crying shame, that the love you've made
                                                               How you gonna feel when you see her down

Why don't you leave me alone?
