                                                                 When we were in love
                                                                 Things were better than they are

There was a new girl in town

Em C G
She had it all figured out (Had it all figured out)

                                                                 Into your arms
Em D
Well I'll state something rash
Em C G D
                                                                 Into your arms
She had the most amazing... smile
                                                                 Oh she's slipping away
I bet you didn't expect that

                                                                 I always reach when I'm thinking of words to say
                                                                                   G
                                                                 Oh the things she does
She made me change my ways (She made me change my ways)
Em C G D
                                                                        D
With eyes like a sunset, baby
                                                                 Make it seem like love
           D
And legs that went on for days
                                                                 Even it's Just a game (Just a game)
                                                                 And I like the way that we play
I'm falling in love
But it's falling apart
                                                                 I'm falling in love
                                                                 But it's falling apart
I need to find my way back to the start
                                                                 I need to find my way back to the start
When we were in love
Things were better than they are
                                                                 I'm falling in love
Let me back into...
                                                                 But it's falling apart
                                                                 I need to find my way back to the start {\color{red}\mathsf{C}}

Into your arms
                                                                 When we were in love

She made her way to the bar
                                                                        D C

I tried to talk to her
 G D
But she seemed so far (She seemed so far)
                                                                 Into your arms
C G D
Out of my league
I had to find a way to get her next to me
                                                                 Into your arms
