

The Maine - We'll All Be

Tom: G

G C
Surrounded by familiar faces,
the people that you love to see
Where everybody knows your name,
and they're smiling
We may not be gettin' younger,
our days might be slippin' away
Yeah we're still so fucking young,
so we'll party like it's our last day

(pre-chorus)

Am
And for the first time,
G
I feel less alone
C
And for the first time,
Am
I can call this home

(chorus)

G Am C
It's our last time to say goodnight
D
Don't say goodbye, 'cause in the morning we'll
G Am C
we'll see you around, and we'll sing it again,
D

same time tomorrow, yeah we'll all join in

(verse 2) (same as Verse 1)
I'm ashamed of feeling down now
'Cause we're the people we've been waiting on
All we needed was some good friends
And a song to sing a long
With voices yelling in the front room
No one could tell us keep it down
So we all just kept it loud,
and tried to wake the entire town

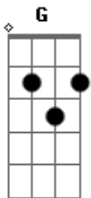

(pre-chorus)
(chorus 2x)
(musical break) G

(G C G C Am C G C)

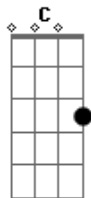

G C
Oh, these days are numbered but we can't forget last summer
When we sang and threw our arms into the air
Go on and sing it out
Our days are numbered, we know we're not gettin' younger
But it's nights like these that make you not really care

G C
We all have been degraded
G C
We all have been the greatest
Am C
We all have been degraded
G C
We all will be the greatest
