

The Midnight - Jason (feat. Nikki Flores)

tom:

Intro: **Bb** **C7** **F**

Keep on running keep on running

(**Bb** **C7**)

Keep on running keep on running

He comes alive in metropolis lights

When the music's way too loud

Deep in the night it's easy to hide

And he's got it all figured out

White satellites getting lost in his eyes

But to him she's just another girl

Roll with the tide like the wind and the sky

And he'll only let you down

[Refrão]

Oooh, oooh, oooh, oooh, oooh, Jason

Tell me what you're chasin'

C **Dm7** **C**

Because the night will never give you what you want

Oooh Jason and if you can't escape it

I hope you find whatever you've been looking for, oooh

(**C** **Dm7** **C**)

Where do you go in a town full of ghosts

And everybody knows your name

And all the homecoming queens in the small town scenes

They'll offer you a place to stay

Some want forever instead of whenever

When they're naked in the light

It's a strange little potion

But sometimes the motion almost makes you feel alive

[Refrão]

Oooh, oooh, oooh, oooh, oooh, Jason

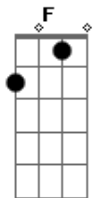

Tell me what you're chasin'

Because the night will never give you what you want

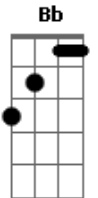

Oooh Jason and if you can't escape it

I hope you find whatever you've been looking for, oooh
