The Mountain Goats - Old College Try

```
Tom: A
Intro: A  Dbm  D  E  D
       A  Gbm  D  E

A                          Dbm
From the housetops to the gutters
D                    E        D
From the oceans to the shores
       A                           Gbm
The warning signs have all been bright and garish
D                         E
Far to great in number to ignore

A                          Dbm
From the cities to the swamplands
D                    E        D
From the highways to the hills
       A                    Gbm
Our love has never had a leg to stand on
D                              E
From the aspirins to the cross-tops to the Elevils

           D  E          A          D
But I will walk down to the end with you
           A              E          A
If you will come all the way down with me

A                          Dbm
```

```
From the entrance to the exit
D                                    E  D
Is longer than it looks from where we stand
A                                Gbm
I wanna say I'm sorry for stuff I haven't done yet
D                              E
Things will shortly get completely out of hand

A                          Dbm
I can feel it in the rotten air tonight
D                              E
In the tips of my fingers in the skin on my face
A                          Gbm
In the weak last gasp of the evening's dying light
D                                      E
In the way those eyes I've always loved illuminate this place
           D                E
Like a trashcan fire in a prison cell
           A                  Gbm
Like the searchlights in the parking lots of hell
           D  E          A          D
I will walk down to the end with you
           A              E          A
If you will come all the way down with me

[Final] A  Dbm  D  E  D
        A  Gbm  D  E  D
        E  D  E  D  E  A
```
