

The Nubi - When My Friend's Heart Has Died

Tom: D

Peter was my best friend

He was my only friend

The only one can understand me But

Our friendship has never end

I was thinking that he'll live forever

When my friend's heart has died

When my friend's heart has died

I want to believe is lie

When my friend's heart has died

I was not stay sad ,why

Because he was said goodbye

And now he is in a better place

Now he's living in the sky

I was thinking that he'll live forever

When my friend's heart has died

When my friend's heart has died

I want to believe is lie

When my friend's heart has died

This dont make me worry

Now he's living in the sky

When my friend's heart has died

Acordes
