

The Polyphonic Spree - Light And Day

tom:

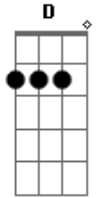

Light and day
 Is more than you'll say
 'Cuz all my feelings are more
 Than I can let by
 Or not
 More than you've got
 Just follow the day

Follow the day and reach for the sun

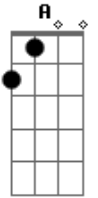

(tiny instrumental like verse)

You don't see me flying to the red
 One more you're done
 Just follow the seasons and find the time
 Reach for the bright side
 You don't see me flying to the red
 One more you're nuts
 Just follow the day
 Follow the day and reach for the sun!
