

The Pretty Reckless - Factory Girl

Tom: G

I am a factory girl, won't you pardon me?
 See I can make my whole world in a backseat
 Lost point, want a joint, show me how to treat a john
 Someone save me, save me from what I'm on

 Wait a minute girl, can you show me to the party?
 I said wait a minute girl, can you show me to the party?
 Please let me in through the backdoor
 Just let me in through the backdoor, baby
 Just let me in through the backdoor, just let me in
 Wait a minute girl, can you show me to the party?

 It's gonna be a real good time

 I'm waiting for my man and hollywood and vine, so fine
 Been done in the alley, son I'm on New York time

Take a look at those red lights, green lights, blowin' my mind
 I'll show you somethin' if you show me a good time

 Wait a minute girl, can you show me to the party?
 I said wait a minute girl, can you show me to the party?
 Please let me in through the backdoor
 Just let me in through the backdoor, baby
 Just let me in through the backdoor, just let me in
 Wait a minute girl, can you show me to the party?

 Here she comes, coming around again
 Here she comes, coming around again
 Here she comes, coming around again
 Here she comes, coming again

 Wait a minute girl, can you show me to the party?
 Wait a minute, wait a minute, wait a minute
 Wait a minute, wait a minute, hey girl, can you show me girl?
 Can you show me to the party? Can you show me to the party?
 Can you show me to the party?
