

# The Revivalists - Keep Going

Tom: F

Verse 1:

Said, I'm pulling down the shades for the long ride  
 I never knew that I could feel so black and blue  
 I've been holding onto something now for sometime  
 All I know is it's a feeling fit for two

Verse 2:

Cuz when the sunlight laid its head down on this dog night  
 And I was talking to myself in the rear view  
 Yeah I've got questions but I know everything is alright  
 All I have to do is just remember you

Prechorus:

Cuz I'm never gonna lose you  
 I've got you deep inside my chest  
 And I can feel you beating like the soul of a drummer boy

Chorus:

We've gotta keep going, keep going  
 Keep going, keep going  
 Don't care what anybody say  
 Let the law take us away  
 We've gotta keep going, keep going  
 Keep going, keep going  
 Don't care what anybody say  
 Nah nah nah nah

Verse 3:

I've been fake and I've been free, I've been you and I've been me  
 But now I stand up tall for what I believe  
 Against all odds I walked that trail of fear, And tread on desperate leaves  
 But no one's leaving just yet, We all want that make believe

Prechorus:

Tried and true tribulations  
 Of who I've come to be  
 The less I know the more I learn, How much love means to me  
 Every day I'm walking out the front door  
 Leaning on your ghost  
 The best feeling of the day is one that I lean toward most

Chorus:

Keep going, keep going  
 Don't care what anybody say  
 Nah nah nah nah

We've gotta keep going, keep going

Keep going, keep going  
 Don't care what anybody say  
 Let the law take us away  
 We've gotta keep going, keep going  
 Keep going, keep going  
 Don't care what anybody say  
 Nah nah nah nah

Verse 4:

I've been fake and I've been free, I've been you and I've been me  
 But now I stand up tall for what I believe  
 Against all odds I walked that trail of fear, And tread on desperate leaves  
 But no one's leaving just yet, We all want that make believe

Prechorus:

Tried and true tribulations  
 Of who I've come to be  
 The less I know the more I learn, How much love means to me  
 Every day I'm walking out the front door  
 Leaning on your ghost  
 The best feeling of the day is one that I lean toward most

Chorus:

We've gotta keep going, keep going  
 Keep going, keep going  
 Don't care what anybody say  
 Let the law take us away  
 We've gotta keep going, keep going
