

The Rolling Stones - Black Limousine

Tom: G

(intro) C G D C G D

(verso)

We used to ride, baby
 Ride around in limousines
 We looked so fine, baby
 You in white and me in green
 Drinking and dancing
 All inside a crazy dream

Well now look at your face now baby
 Look at you and look at me

(verso)

I get so scared
 Just to see you on the street
 They're living dead
 You're all the same, you never speak
 You're wrecked out now
 Washed up high up on the beach
 Well now look at your face now baby
 Look at you and look at me

(instrumental) C G C G D C G D C G C G D C
