

The Rolling Stones - If You Need Me

Tom: G

If you need me, why don't you call me
 Said if you need me, why don't you call me
 Don't wait too long, when things go wrong
 I'll be there, yeah, where i belong
 Said if you want me, why don't you send for me
 Said if you want, want, want
 All you gotta do is send for me
 Don't wait to long, just pick up your phone
 I'll be there, right there, where i belong
 People always told me, darling

That you didn't mean me no good
 But i know deep down in my heart
 I done the best i could
 And one of these days, darling, it won't be long
 You're gonna come walking through that door
 And i know in my mind these are the very
 Words you're gonna say to me
 I still love you, always thinking of you
 I still love, love, love
 Always thinking of you
 Don't wait too long, when things go wrong
 I'll be there, right there, where i belong
