

The Score - Believe

Tom: D

Intro: G Bm A

When it's four in the morning

When it comes without warning

The silence drags you down under the tide

When your whole world is jaded

When your colors are faded

And nothing but your shadow's on your side

I believe in you

I believe in you

If you ever need somebody (somebody)

Even if all your tiles fall down

If you ever need somebody (somebody)

Even when all your hope runs out

If you ever need somebody

I believe, I believe, I believe in you, in you

I believe, I believe, I believe in you, in you

When your fights fly like arrows

When the air all feels narrow

And the rock you always lean on starts to slide

You feel suffocated

So once celebrated

And the person that you were you can not find

I believe in you

I believe in you

If you ever need somebody (somebody)

Even if all your tiles fall down

If you ever need somebody (somebody)

Even when all your hope runs out

If you ever need somebody

I believe, I believe, I believe in you, in you

I believe, I believe, I believe in you, in you

Even in your darkest days

Even if you lose your way, you lose your way

(I believe, I believe, I believe in you, in you)

Even when you're feeling down

Even when you're at your worst, you're at your worst

(I believe, I believe, I believe in you, in you)

If you ever need somebody, somebody

If you ever need somebody, somebody

If you ever need somebody (somebody)

Even if all your tiles fall down

If you ever need somebody (somebody)

Even when all your hope runs out

If you ever need somebody

I believe, I believe, I believe in you, in you

(Somebody)

I believe, I believe, I believe in you, in you

(If you ever need somebody)

I believe, I believe, I believe in you, in you

(Somebody)

I believe, I believe, I believe in you, in you

(G Bm A)
