

The Script - Nothing

```
I can change your mind turn it all around
Intro: 2x: D Bm A
                                                                And I know that I'm drunk but I'll say the words
Verso:
                                                                And she'll listen this time even though there slurred
Am I better off dead
    Bm
Am I better off a quitter
                                                                Dial her number and confess to her
            D
                                                                I'm still in love but all i heard was nothing
They say I'm better off now
Than i ever was with her
                                                                Verso:
                                                                                                 G A Bm D
As they take me to my local down the street
                                                                Oh sometimes love is intoxicating
                                                                                                            G A Bm D
I'm smiling but I'm dying trying not to drag my feet
                                                                Oh you're coming down your hands are shaking
                                                                                                 G A Bm D
                                                                When you realise there's no one waiting
They say a few drinks will help me to forget her
                                                                Am I better off dead
But after one too many I know that I'm never
                                                                Am I better off a quitter
                                                                They say I'm better off now
                        Bm
Only they can see where this is gonna end
                                                                Than I ever was with her
           Α
                    G
But they all think I'm crazy but to me it's perfect sense
                                                                And my mates are all there trying to calm me down
And my mates are all there trying to calm me down
                                                                'Cause I'm shouting your name all over town
'Cause I'm shouting your name all over town
                                                                I'm swearing if i go there now
I'm swearing if i go there now
                                                                I can change your mind turn it all around
I can change your mind turn it all around
                                                                And I know that I'm drunk but I'll say the words
And I know that I'm drunk but I'll say the words
                                                                And she'll listen this time even though there slurred
And she'll listen this time even though there slurred
                                                                Dial her number and confess to her
Dial her number and confess to her
                                                                I'm still in love but all i heard was nothing
I'm still in love but all i heard was nothing
                                                                Igual Refrão:
                                                                She said nothing
Refrão:
                                                                Oh I wanted words but all I heard was nothing
                                                                Oh I got nothing
And my mates are all there trying to calm me down
                                                               Nothing
                                                                I got nothing
'Cause I'm shouting your name all over town
                                                                Nothing
                                                                Oh I wanted words but all I heard was nothing
I'm swearing if i go there now
                                                                Oh I got nothing
                                                                I got nothing
                                                                I got nothing
