

The Seeds - Beautiful Mysterious

Tom: C

(C G Am F)

Mysteriously, beautifully
 Saw you and your friends standing across from me
 Capture of your glimpse, actions nervously
 Blessing bloom all around you, hear I sing
 Your humble beauty and your feminine drive I mon crazy
 Even when I see you from afar, still look pretty
 This is the natural attraction from a male to a darling
 Not of root from the birds and the bees, but from Adam and Eve

Never gonna see you as a fool
 Treat you with respect, I am not a fool
 Everyday, go home forgetting your look
 Next day glance upon your face dejavu
 This is not a joke, what I'm telling you is true
 Yet I'm not in love, I don't care who
 Still your body is slender, body so fair
 Love how the sunshine reflect off your hair
 If there is any answer, please tell me where
 To my question, never yet shared
 Try to keep my strength, but you are my weakness
 Yet when I pass upon and by you, I put up no interest, you are my weakness
