The Steel Woods - I'm Gonna Love You

```
                         tom:
                    G
                         G
I'm gonna love you

I don't know how that I can make
      Em
Your dreams come true
                         D    G
But I know I'm the one to get it done
                   Em
With a flower or a gun
                 G
And that's the truth
           D              G
Listen to me now, I'm gonna love you
              G
I'm going out young

I don't know when or how
            Em
But I'll be on the run

Chasing down this dream
     D        G          Em
I have with you into the Sun
                D                G
Oh, listen to me now, we're going out young
              Em    C
And it's a long road
                       G
We're bound to break down
           Em          C
We got a long way to go
```

```
                         D
But can't nobody stop us now

[Solo] Em   C   G   D
             Em   C   G

     G
I'm gonna love you
                                      Em
With everything I have and everything I do
                                D    G
I know I'm the one to get it done
                   Em
With a flower or a gun
                 G
And that's the truth
                D                G
Oh, listen to me now, I'm gonna love you
              Em        C
And it's a long road
                       G
We're bound to break down
           Em          C
We got a long way to go
                         D
But can't nobody stop us now

G
I'm gonna love you
G
I'm gonna love you
G
I'm gonna love you
```
