I'll think you're strange

A way out of this cage

I walk the lines they made me

Just to make them smile

Cause every monster they make

Was once a happy child

We won't go with out a fight

C

They said that you'd be nothing they said

These dreams will die

But I stood strong and worked too hard

To keep this hope alive

Here we go, here we go

I'm going to write my name in lights
