

# The Two - First Of January

Tom: **A**

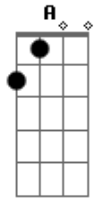

m

Looking for something to think about  
 And air to breath on that day  
 Looking for hope in a dark and empty deep well  
 And even knowing that better days will come  
 I know we will suffer for four years or more  
 I can't get any satisfaction  
 From seeing smiles amid forest and sun colors  
 To those who govern by decreeing  
 Only I desire all that you preach  
 For you who despise the rights of each  
 And incessantly deny the power of the laic state

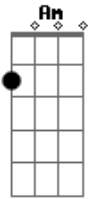

I just have to say fuck all this shit  
 Fuck the general  
 Fuck the captain  
 Fuck the ministers  
 Fuck the first lady  
 I just want the right to live quietly  
 Without persecution or restraint on my friends  
 Live the right to live!  
 Live life and the right to be  
 Whatever you want  
 Whatever you want  
 Whatever you want  
 Now!
