

The Used - Blue And Yellow

tom:

F

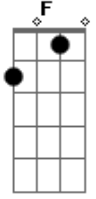

Drop D tuning:

play this for the verse and into the pre-chorus with "you're never gonna find it if you're looking for it won't come your way.."

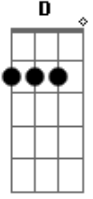

play this and it smoothly flows into the chorus like so:

This is the entire song and the chorus is distorted while the verses are played clean. The break after the chorus is played a second time is a bass line with heavy drums and distortion. But that's what I've got. Enjoy!
