

The Vamps - Higher

Tom: A

^{A E D}
Does it hit like a bullet, my darling

^{A E D}
Whenever you hear that song?

^{A E D}
Does it take you a moment to realise

^{Gbm E D}
All that you knew is gone?

^{A E D}
Does it feel like the seconds are hours?

^{A E D}
Has the clock frozen in time?

^{A E D}
Do you tell everyone whose around you

^{Gbm E D}
That love ruins you heart with its lies

^{E D}
Do you wait until you can pretend

^{E D}
You're okay and it starts again

^{A E}
If everything's changing I need you to know
That the hardest decision

^{Gbm}
Was letting you go

^D
Searching for moments that we shared before

^A
When you took me higher, higher

^E
You took me higher, higher

^{Gbm D}
You took me higher, higher

^{A E D}
One hundred and sixty-eight hours

^{A E D}
Since I stepped off that train

^{A E}
For the questions

^D
I don't have the answer

^{Gbm E D}
Nothing I feel is the same

^{Gbm E D}
No nothing is left I'm to blame

^{A E}
If everything's changing I need you to know
That the hardest decision

^{Gbm}
Was letting you go

^D
Searching for moments that we shared before

^{A E}
I clang to the memory how you came to me

^{Gbm}
Counting the hours like I watched you sleep

^D
No nothing else matters like you did for me

^A
When you took me higher, higher

^E
You took me higher, higher

^{Gbm}
You took me higher, higher

^D
Whoa whoa whoa

^A
And I switch off, burn out

^E
Give up, I shout out

^{Gbm D}
All of the days became one

^A
And I walk home alone

^E
I hide away from my phone

^{Gbm D}
Nothing is right now you're gone

^{A E}
If everything's changing I need you to know
That the hardest decision

^{Gbm}
Was letting you go

^D
Searching for moments that we shared before

^{A E}
I clang to the memory how you came to me

^{Gbm}
Counting the hours like I watched you sleep

^D
No nothing else matters like you did for me

^A
When you took me higher, higher

^E
You took me higher, higher

^{Gbm D}
You took me higher, higher

^A
Higher, higher

^E
Higher, higher

^{Gbm}
Higher, higher

^{D A}
Higher, higher
