

The Vamps - Million Words

Tom: **E**

E
All the times that it slipped out my dimension
B
That you're the one I need and if I forgot to tell you
Dbm
I was wrong to ever doubt it and you're all I think about,
yeah
A
There's a million words I shoulda said
E
I remember you were standing in my doorway
B
And the words were on my lips, that you never looked so
beautiful
Dbm
Oh just to be near you, don't you know how good that feels?
A
These are all the things I should've said
Abm
Gbm **Abm** **A**
Did I miss my chance? Is it too late to say?

[Refrão]

E
Now I'm half a world away from you
B
But you're always on my mind
Dbm
There's a million words that I could've said
A
That you might still be mine
E
And if there's someone where I used to be
B
I hope he tells you every day
Dbm
The million words that I should've said
A **E**
I wish I could tell you, always
E
When you were mine, did I push you far away?

B
Blamed this whole weight on my shoulders bearing down on me
Dbm
But then I only had to see you, don't you know how good that
feels?
A **Abm**
These are all the words I should've sent
Gbm **A**
Did I miss my chance? Is it too late to say?

[Refrão]

E **B**
And if I could only catch your eye and throw a smile
Dbm
Maybe I could stop to say what's screaming in my mind
A
You should know that what I want to say could take all night
Abm
Or my whole life
Gbm **Abm**
Do I get a second chance to make you mine tonight?

E
Now I'm half a world away from you
B
But you're always on my mind
Dbm
There's a million words that I could've said
A
That you might still be mine
E
And if I ever get the chance again
B
I would tell you every day
Dbm
With the million words that I should've said
A **E**
I wish I could tell you, always
B **Dbm**
Always, always
A **E**
Always, always
