

# The Vamps - My Place

Tom: G

Should I stay, another day?

Inside my head, an empty space

Tried every way to clear my brain

It's an attitude I can't escape

'Cause for a while it goes when I breathe in  
Stays for a minute disappears when you touch my skin, oh  
I don't wanna go

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

Coffee stains, on my pillowcase

And the way you smile, when the neighbors complain

Why'd you play your cards close to your chest?

Wasting time when we could waste our breath

Speaking 'bout how we'd change the world from my bedroom

Baby say you're home  
Let's go back to my place

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

But baby where we headed now?

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

Rollercoasters, baby take a ride

Looking for another a chance to change your mind

We don't have to go too far tonight

Just back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

But baby where we headed now?

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place
