

The Vamps - Shout About It

Tom: **G**
Intro: dução (2x):

1ª parte:

2ª parte:

G If you want words to put your mind at rest tonight,
G Come and shout about it.
G We can talk for a hundred miles and drive
G Where you're less surrounded.

G Cause I can see that the candle you hold inside
G Has a cloud around it.
G How can a heart like yours be that high and dry
G When it burns the brightest.

Am I'm so sorry I can't stop myself from staring at you,
Em7 When you're tired and blue, my dear
Am It's just any reason I get to be closer to you,
D I wanna shout about it,
Am Oh, I wanna shout about it

G Beneath the window and the water that's in your eyes
G That's where I know you're hiding.
G There's a smile that could light up a thousand lives
G And you need reminding.

G Tell me your fears, don't let 'em live a life alone
G Let me share the burden.
G Cause here beside you there's a man you better know know
G Who you can confide in.

Am I'm so sorry I can't stop myself from staring at you,
Em7 When you're tired and blue, my dear
Am It's just any reason I get to be closer to you,
D I wanna shout about it,
Am Oh, I wanna shout about it

Am I'm not saying, all I do
Bm Will make everything you touch turn gold
Am I'm just waiting to pull you through
Bm I'll take a little off the load
Am Yeah, any reason I get to be closer to you
