2ª parte:

G D G C
If you want words to put your mind at rest tonight,
Come and shout about it.
G D G C
We can talk for a hundred miles and drive
G
Where you're less surrounded.

G D G C
Cause I can see that the candle you hold inside
G
Has a cloud around it.
G D G C
How can a heart like yours be that high and dry
G
When it burns the brightest.

Am C
I'm so sorry I can't stop myself from staring at you,
Em7 Bm
When you're tired and blue, my dear
Am C Am
It's just any reason I get to be closer to you,
D G
I wanna shout about it,
Am D G
Oh, I wanna shout about it

G D G C
Beneath the window and the water that's in your eyes
G
That's where I know you're hiding.
G D G C
There's a smile that could light up a thousand lives
G
And you need reminding.

G D G C
Tell me your fears, don't let 'em live a life alone
G
Let me share the burden.

G D G C
Cause here beside you there's a man you better know know
G
Who you can confide in.

Am C
I'm so sorry I can't stop myself from staring at you,

Am C
I'm not saying, all I do
Bm Am
Will make everything you touch turn gold
Am C
I'm just waiting to pull you through
Bm Am
I'll take a little off the load
Am C
Yeah, any reason I get to be closer to you
