The Verve - Weeping Willow

```
Tom: G
                                                               Em
                                                          Yeah save me
  (intro) Em D C D
                                                               D
                                                          Yeah save me
    Em
               D
When morning breaks
                                                                            Em
                                                                                D
                                                                                         С
                                                          I hope you see like I see yeah yeah
                  D
  C
We hide our eyes and our love's aching
                                                                            Em
                                                           D
                                                                                  D
                                                                                         C
                                                          I hope you feel what I feel yeah yeah
Em D C D
Nothing's strange
                                                             D
                                                                           С
                                                          Someone to stand beside me
      Em
              D
It was in our hands
                                                          ( Em D C D ) (through the repetitions)
   C D
From six to ten
                                                          Beside me
               Em
                   D C D
                                                          Beside me
It slipped right out again
                                                          Beside me
                                                          Beside me
             D
                                                          Beside me
There'll be no better time
                                                          Beside me
          D
                                                          Beside me
There'll be no better way
                                                          Beside me
                          Fm
C
            D
There'll be no better day to save me
                                                          Beside me
                                                          Beside me
D
Save me
                                                          Beside me
                                                          Beside me
    Fm
Yeah save me
    D
                                                          Beside me
Yeah save me
                                                          Beside me
                                                          Beside me
                  Em
                               С
                      D
                                                          Beside me
I hope you see like I see yeah yeah
D Em D C
                                                             Em
                                                          D
I hope you see what I see yeah yeah
                                                          Weeping willow
 D
                  C
                                                            D
                                                                           C
I hope you feel like I feel
                                                          The pills under my pillow
                                                          D
                                                              Fm
                                                          Weeping willow
(Em D C D)
                                                                       C
                                                          D
                                                          Pills under my pillow
      Em
                  D
And the world don't stop
                                                          D Em
    C
                  D
                                                          Weeping willow
There is no time for cracking up
                                                           D
                                                                           С
  Em D C D
                                                          The gun under your pillow
Believe me friend
                                                          D Em
                                                          Weeping willow
          Em
                  D
                                                          D
                                                                С
'Cause when freedom comes
                                                          Weeping willow
   C D
I'll be long gone
                                                          (Em D C D) ('til the end)
    Em D C D
You know it has to end
                                                          Beside me
                                                          Beside me
                                                          Beside me
             D
There'll be no better time
                                                          Beside me
            D
C
There'll be no better way
                                                          Beside me
            D
                          Em
                                                          Beside me
There'll be no better day to save me
                                                          Beside me
D
                                                          Beside me
Save me
                                                          (Em D C D Em)
