

The White Buffalo - I Am The Moon

Tom: C

You are the sun
I am the moon
Chase you around like a better fool
Sometimes I go dark
Blocked by the world
You shine so bright, on the other side
Gives light to the Earth

And the morning comes too soon
'Cause I'm the Moon

You are so far
Distant somekind
But I'll keep on staring until I go blind

And the morning comes too soon
'Cause I'm the Moon

You are the sun
I am the moon
Chase you around like a better fool

But every once in a while
We lock in the sky like clovers
Just for the moment I cover
You up and we will intertwined
But I hold you tight
Just for a time and it's done
Just for a time we were one
Kiss and we say goodbye
