Athena, I had no idea how much I'd need her
In peaceful times I hold her close and I feed her
My heart starts palpitating when I think my guess was wrong
But I think I'll get along
She's just a girl -

she's a bomb

Athena, all I ever want to do is please her

My life has been so settled and she's the reason
Just one word from her and my troubles are long gone
But I think I'll get along
She's just a girl
