

The XX - Reunion

Tom: **A**

(com acordes na forma de)
Verso

We visit a life we both left behind
We know the heart
Move to the ever-moving
Or, blazin', we go over
And over and over and over again

2x
the end

If I wait too long, I lose you from my sight
Maybe tonight
I could stop dreaming
And start believing in forever
And ever and ever and ever again

Refrão:

Reunion, reunion
Reunion, reunion

Never not ever, never not ever again

Verso:

And it's burning inside 'til you give it up
How long should I wait?
There's no need to hide, I let
Only you in here

There's an end to us with someone else inside
at You shine your light
There goes that feeling, won't let me see them
Never not ever, never not ever again

Outro:

Did I see you see me in a new light?
Did I see you see me in a new light?
Did I see you see me in a new light?
Never not ever again
Did I (Never not ever) see you (Never again)
See me (Never not ever) in a new light? (Never not ever again)
Did I see you see me?
Never not ever, never not ever again
