Tom: G

(intro) (verso riff a)

(verso 1)

Never mind all the things you heard about me
 Never gonna understand it

Everytime I've given you the truth

It's neve made a bit of difference, no no

Dissapointment takes you, then the doubt it breaks you

It's enough to make you cry

(refrão)

Always lookin for a sign

Miraces won't change your mind

Tell me how much evidence you need

Turnin' truth into a lie

Hardened heart and blinded eyes

All you need to do is just believe

(verso 2)

Never mind what you think that you have seen
 It all can change in just a moment
 All the....is all the proof you need
 Why can't you just believe it
