

Third Day - I Will Hold My Head High

Tom: C
Intro: C (8x)

Sometimes the night starts closing in
 And I've lost my way home again
 I'm running out of places I can turn
 Enemies on every side
 Not a friend around for miles
 That's the time it really starts to hurt
 Beat me up and drag me down
 I'll never be afraid

[CHORUS]

I will hold my head high
 Lift my hands to the sky
 Rise above all who try to bring me down
 I will hold my head high

I know you said it'd be okay
 Sometimes I question just the same
 I wonder if my problems are too small
 Then I look back and realize
 All your pain and sacrifice
 Oh and how you suffered for us all
 Beat me up and drag me down
 I'll never be afraid

Chorus

Solo

Beat me up and drag me down
 And lock me in or keep me out
 Whatever they may throw at me
 I'll turn into a song for you

Chorus(2x)

Acordes
