Explanation of my format:  
 I started out my musical career on drums, and I was fortunate to have an excellent teacher, who taught me the basics of rhythm, (especially in 4/4 time) and he taught me to count 1 measure of music, and say it aloud literally, like so: "one 'e' and a two 'e' and a three 'e' and a four 'e' and a." And that represents 1 bar of music. The numbers "1 2 3 4" in that are the 1/4 notes, the "and"'s and 1/8 notes, and the 'a' and the 'e' are 16th notes. I've combined this with the standard Tab notation, and added a time signature at the beginning so that people like me who need the rhythm can follow along. THIS IS AN EXACT REPRESENTATION OF THE MUSIC! If I place a note above the "", then it is on an eight note.

NOTE: What follows is the REAL intro. I looked on the 'net in so many places, but could not find a single accurate version of the intro. I found one

version that was close but it was Capo 2 in D... But the song's not played like that. Here's the real version, as played on the CD, as close as I can hear it. I hope this is exact enough for y'all. ;) (For the rest of the song, try the version by Ben Allen, , which is excellent. I use it myself. It can be found at )
