# This Wild Life - Over It

Tom: C

[Verse]

```
Am                      F
I've been dealing with pain
                    Am
With nothing to my name
                          F
It's been eleven hundred days
                            Am
Since we've gone our separate ways
Am I the one to blame?
              F
                  Am
And do you feel the same?
                        F
Does it have to be this way?
```

[Chorus]

```
                C
I've gotta get over it over it over it
 F
And over you
 C
I'm starting to feel

Starting to heal
   F
And you should too
             Am
We were kids made mistakes
Couldn't stay in one place
   F
So we ran away
                C
I've gotta get over it over it over it
 F
And over you
```
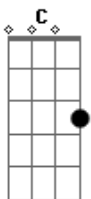

[Verse]

```
Am                  F
Forget everything I said
                Am
And I will do my best
                          F
To get your voice out of my head
                            Am
You're just a shoebox under my bed
                          F
The string that's binding my heart
                    Am
Is slowly raveling apart
   F
You took me for granted

I caught you red handed

   C
I'm over it over it over it
 F
```

```
And over you
            C
I'm starting to feel

Starting to heal
       F
And you should too
                  Am
We were kids made mistakes
Couldn't stay in one place
             F
So we ran away
                    C
I've gotta get over it over it over it
 F       G
And over you
           C                      G
I know I dragged us both through Hell
                        Am       F
But I wish you'd forgive yourself
           C            G
I think I learned a lesson too
                  Am             F
That I'm at my worst when I'm with you
                  Am             F
That I'm at my worst when I'm with you
```
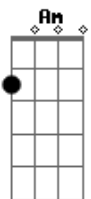

[Chorus]

```
                      C
I've gotta get over it over it over it
       F
And over you
       C
I'm starting to feel

Starting to heal
       F
And you should too
                  Am
We were kids made mistakes
Couldn't stay in one place
             F
So we ran away
                      C
I've gotta get over it over it over it
       F
And over you
           Dm
I'm starting to feel
       Em
Starting to heal
       F
And you should too
                  Am
We were kids made mistakes
Couldn't stay in one place
             G
So we ran away
                    C
I've gotta get over it over it over it
       F
And over you
```
