

Thrice - Stay With Me

Tom: G

Intro: C Dm F
C Em

You were a silhouette shimmering shadow in the
Em mirror with ash and snow
I took your fevered hands felt like embers of the world's
dying glow
And you were featherlike as I carried you quietly through the
Em crumbling streets
And in the fading light I could see in your eyes that somehow
Em we were meant to meet

(F Am C Dm)
(F Am G F)

F
Would you stay with me
Am
If you thought the war was over
Dm
And everything made right?
F
Would you still believe in us?
Am
And would your love for me grow colder
F
With no one left to fight?

(C Dm F)

Would you stay with me? C Dm F

(C Em)

C
After the fever left together we scavenged through the
Em city and her scars

C
And when the day would end by the door against the
Em demons and the dark

C
We'd share a can of something a bottle of bourbon I'd hid
Em away

C
It warmed me from within and you from without

Em
Till I forget the chilling grief
