```
     Ooh, ooh
Am                 Bb  C
Cold in the night when I hold you close
Am                 Bb  C
Ooh, ooh
Am                 Bb  C
Searching your eyes, but you're gone like a ghost

( Am   Bb )

              Am             Bb  C
And I say "baby, you can put it on me"
              Am             Bb  C
Cause I know I don't make it easy
              Am             Bb  C
My body hurts with every heart beat
              Am             Bb  C
Just say I'm not the only one

        Dm             Bb            F          C
C'mon, tell me that you've still got the flame for me
        Dm             Bb            F          C
And tell me that you still want to stay, don't leave
        Dm                 Bb
Even though I've never given up in my heart
       F                 C
Even though a part, a part of me don't work
        Dm             Bb            F          C
Baby, tell me that you've still got the flame for me
                       Bb
And we can let it burn
Dm  Am  C  Bb  Dm  Am  C
Ooh, ooh, ooh, ooh

     Am        Bb  C                 Am        Bb  C
I payed the price for the wrongs I've done
     Am        Bb  C                 Am        Bb  C
It's all you can do when you love someone

             Am                 Bb  C
And I say "baby, you can put it on me"
             Am                 Bb  C
'Cause I know I don't make it easy

Ooh, ooh, ooh, ooh

Dm        C           F
And I know and I know I can't make you
Bb        F           C
I can't make you let go (don't let go)
Dm           C           F
And I don't and I don't and I don't blame you
Bb                  C
'Cause I hurt you before

Tell me

        Dm             Bb                F          C
C'mon, tell me that you've still got the flame for me
        Dm             Bb            F          C
And tell me that you still want to stay, don't leave

Even though I've never given up in my heart
       F                 C
Even though a part, a part of me don't work
            Dm             Bb            F          C
