

# Tipling Rock - Campus Fashion

Tom: G

Yeah this love could kill me  
 But all my love could make you smile  
 But you know how to thrill me  
 And you know girl you're just my style

She may not have that passion  
 But she's got that campus fashion  
 Spotlight, and that's alright with her  
 Keeps up with all the trends right  
 She know's just what her friends like  
 Tonight, and I just might with her

She lives like she's in Paris  
 And I think that she gets my vibe  
 But me I'm not so careless  
 And I don't want to let her slide

She may not have that passion

But she's got that campus fashion  
 Spotlight, and that's alright with her  
 Keeps up with all the trends right  
 She know's just what her friends like  
 Tonight, and I just might with her
