

Titanic Sinclair - Scorpio

tom:

G

We were living life so bleak
 And I could barely breathe
 I couldn't fall asleep sober
 You were?always?in my mind
 I?imagined all the time
 One day you?might be mine
 So girl, when I saw your light shine through
 It blinded me with truth
 I didn't have the blues anymore, girl
 Show me what it's like to sing a better melody
 'Cause I can finally see what I need, girl

I want you in my world

[Refrão]

If you wanna be with me, girl
 You ought to know
 I can get a little freaky with a Scorpio
 Put a gun to my head
 'Cause I like it rough
 Everyone's a little crazy when they fall in love

[Segunda Parte]

Never thought that love was real
 Until you helped me heal
 And showed me how to feel so good
 Now I think I understand
 I wanna hold your hand
 I wanna be your man so bad

[Refrão]

If you wanna be with me, girl

You ought to know
 I can get a little freaky with a Scorpio
 Put a gun to my head
 'Cause I like it rough
 Everyone's a little crazy when they fall in love

[Ponte]

My little Scorpio
 You make me feel alive again
 And when we lose all hope
 Then we can fall in love again

Bm C D

[Breakdown]

I really think it's meant to be
 'Cause your astrology works perfectly with me
 Maybe everything they say is true
 The planets really do have power over you, baby

[Refrão]

If you wanna be with me, girl
 You ought to know
 I can get a little freaky with a Scorpio
 Put a gun to my head
 'Cause I like it rough
 Everyone's a little crazy when they fall in love

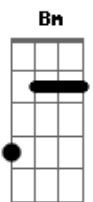

[Refrão]

If you wanna be with me, girl
 You ought to know
 I can get a little freaky with a Scorpio
 Put a gun to my head
 'Cause I like it rough
 Everyone's a little crazy when they fall in love
