

Tom Misch - Movie

tom:
[Primeira Parte]
I hope
That the fire we both made
Still burns a little in you
I wrote, to you
Everyday, did my letters find their way?
Our memories on my screen
Two lovers in this mystic dream
Baby come back to me, come back to me
Too much time on my phone
Baby do you still sleep alone?
Come back to me, come back to me

[Refrão]
Remember me
Fresh out a black and white movie
On every screen
What would you realize
What you meant to me, it was a mystery
Remember me
Fresh out a black and white movie
On every screen
What would you realize
What you meant to me, it was a mystery

[Segunda Parte]

I heard
That you moved somewhere far away
Is your number the same as before?

Can't ignore, the time
May have changed your ways
Does my record still hang on your wall?
Such a sentimental way to groove
I hope it still touches you
Baby come back to me, come back to me
It kills me to see you leave
So I came home and made this beat
Baby come back to me, come back to me

[Refrão]

Remember me
Fresh out a black and white movie
On every screen
What would you realize
What you meant to me, it was a mystery
Remember me
Fresh out a black and white movie
On every screen
What would you realize
What you meant to me, it was a mystery

[Ponte]

Remember me, let's set the scene
You and me, what could've been
Still swimming in a lover's dream
Still playing on the movie screens
Remember me, let's set the scene
You and me, what could've been
Still swimming in a lover's dream
Still playing on the movie screens
