

# Tom Waits - You Can Never Hold Back Spring

Tom: G

(intro) D A A D

You can never hold back spring

You can be sure I will never

Stop believing

The blushing rose they will climb

Spring ahead or fall behind

Winter dreams the same dream

Every time

Baby you can never hold back spring

Even though you've lost your way

The world is dreaming dream of spring

So close your eyes

Open your heart

To one who's dreaming of you

Baby you can never hold back spring

Remember everything that spring

Can bring

Baby you can never hold back spring

Baby you can never hold back spring
