

Tori Kelly - Upside Down

Tom: C

G Dm
You have flipped my view
F Am
Yeah, I'm not used to these changes
G Dm F
All these brand new feelings I can't explain
Am
But somehow I like it

G Dm
And if I, find out
F Am
That you feel, the same way
G Dm
As I do, I will love you
F Am
As soon as I can stand up straight, ohh

G Dm
You got me walking sideways
F Am
Spinning all around
G Dm
Dizzy because you flip my world
F
Upside down
Am
Upside down

G Dm
I've been so confused
F Am

I wouldn't normally fall for someone quite like you
G Dm
I'm tripping over my own thoughts
F Am
But baby I really like you a lot

(G - Dm - F - Am)
(I wonder if you feel the same)
If you feel the same way
(I wouldn't know just what to do)
Cause I can't even stand up straight

G Dm
You got me walking sideways
F Am
Spinning all around
G Dm
Dizzy because you flip my world
F
Upside down
Am
Upside down

(G - Dm - F - Am)
Can somebody tell me why I feel this way
24/7 you're always on my brain
I can't really put my finger on it but
(You got me so twisted)
I've had crushes before, but it's not the same
2)
Something different about you, I can't explain
Baby you're making me insane
(You got me so twisted)
