

## **Toto - Bottom Of Your Soul**

```
Intro: Cm | Eb | Ebm | F
                                                               Always remember the voice in your head
                            Bb
Cm
                   Ah
                                                                                       Bh
                                                               Speaks to you when you're alone
     Where are the children we lost not long ago
                 Ab
                            Bb
                                                                          Ab
      Feel for the Mothers who weep for them
                                                               And it comforts you
\mathsf{Cm}
                                Bb
                                                                                               Gm
                                                                                                                   Cm | Eb |
                    Ab
                                                               Ebm | F |
     I pray for the Fathers who are standing by their side
                                                               From the top of your heart to the bottom of your soul
                                 Bb
      In their world of pain and suffering
                                                               Verse 3:
Cm | Eb | Ebm | F |
                                                                              Ab
                                                                                                 Bb
                                                                  You can swim in a river of tears they cry
Verse 2:
                                                                                       Αb
                                                                   For they sleep on the winds of uncertainty
      Have you ever seen the look in a hungry child's eyes
                                                                                       Ab
                                                                   Show us a sign and make us believe again
Cm
                   Ab
                             Bb
      They can't eat money or promises
                                                                                       Ab
                                                                   There's no other way, oh, there's no other way
\mathsf{Cm}
                   Ab
     Give them your smile and try holding out your hand
                                                               Cm | Eb | Ebm | F |
                    Ab
     Let them know you're there, let them know you're there
                                                               Ab | Bb |
                                                               \mathsf{Cm}
                                                                                   Eb
                                                                                                          Ebm
Why is it always the ones that we love
                                                               Yeah Yeah Yeahe, Yeah Yeah Yeahe, Yeah Yeah Yeahe, Yeah
Are the ones that will never come home
                                                               Yeah Yeaehe
                                                                                         Ab
                     Ab
Why must all of the bridges we cross take their toll
                                                                    Speaks when your alone, and it comforts you
