

Tove Lo - Cycles

Tom: G
Intro: G

What's your name?
I can tell you a story before we get into the game
We fall head over heels overnight
See my face in your future
I'm in your future, in your nights, mmm
We're intense
In a loop on a 24/7, don't want it to end
But reality's waitin', they say better come up for air soon
Yeah, come up for air soon
Make a change, mmm
