

Tove Lo - Not Made For This World

```
Tom: C
  C
So you fought off a thousand gangsters, ready for the war
And you hang with the stones round the world on tour
Then you bought me a million diamonds, but lost them by the
As if I did believe you all look in the water
I'm the wide eyed loving monster who feeds your every lie
'Cause I need to pretend it's you and I
And I know my head is twisted but it keeps me sane at times
But I know I can keep you in my mind
Dream till I'm dead then set me on fire
Flames and the smoke keep taking me higher
Love and pretend will soon be expired
We would be not made for this world
Not made for this world
So I tell you a little secret, who knew that I could fly?
I'm the queen of the world and the trees up high
And if you wanna come with me you just say the word
I'll be waving my wand then we both turn into birds
You're the wide eyed loving monster who feeds my every lie
```

```
'Cause I need to pretend it's you and I
Dream till I'm dead then set me on fire
Flames and the smoke keep taking me higher
Love and pretend will soon be expired
We would be not made for this world
Not made for this world
We got a happy place
Where nobody else can go
You and I
Dream till I'm dead then set me on fire
Flames and the smoke keep taking me higher
Love and pretend will soon be expired
We would be not made for this world
Dream till I'm dead then set me on fire
Flames and the smoke keep taking me higher
Love and pretend will soon be expired
We would be not made for this world
                                           \mathsf{Am}
We would be not made for this world
```
