  Intro: C Dm Am F
                                                             Tell me, is this the part when
                                                             Am
             Dm
                                                             Part when we are
Stay up 'til dawn
                                                             0-0-0-0ver
I can't go home again now
    Dm
After tonight
                                                             Wish I was, wish I was
Seems like I'm out of your life
                                                             Guess we are, guess we are
C Dm
Apologize
No, it won't make it better
    Dm
What can I say?
It's all too late
Tell me, is this the part when
When we part ways forever
Tell me, is this the part when
Part when we are
C Dm Am
0-0-0-0ver
Wish I was, wish I was
Guess we are, guess we are
Fighting all this fight
 Dm
You're so cold without the love
There is nothing left out of everything we were
C Dm Am

             C Dm Am F
Guess we are over
Walk through the door
You see that I've been crying
            Dm
Head hanging low
You say "where the fuck have you been?"
        Dm
Should I deny
And maybe dodge this bullet
       Dm
You read my mind
I just can't lie
Tell me, is this the part when
                                                             Guess we are over
```

```
Fighting all this fight
You're so cold without the love
There is nothing left out of everything we were
C Dm Am
0-0-0-0ver
Guess we are over
(Over)
Guess we are over
I can tell that you know when it kills you
What you need me to say is gonna hurt you
                  Dm
Wanna run, but I stay 'cause I have to Am F
Have to tell you
And I know that you're so gonna hate me
If you did what I did, I would hate you too
I would hate you too
And we are
C Dm Am
Over, Over
Wish I was, wish I was
Guess we are, guess we are
Fighting all this fight
You're so cold without the love
There is nothing left out of everything we were
C Dm Am

Guess we are over
