

Tove Lo - Scars

Tom: C

Intro: Dm C G

Dm (dedilhado)

Scars we carry
 Carry with memories, memories burned by the dark
 Try to see clearly
 Tears we bury
 Bury in vain cause the pain got us falling apart
 Try to see clearly

Dm

Now let the healing start

C G

The fires out of guns

Dm

We keep it in our hearts

C G

We're like a thousand suns

Dm

Ooh, yeah, every day, step by step

C G

We dare to love again

Dm

And if we lose our grip

C G

Meet you at the end

Dm

Know they're cutting you deep

C

Feel the scars in your sleep

G

What didn't kill us made us stronger

Dm

Stories left on our skin

C

Wear them with everything

G

What didn't kill us made us stronger

Dm (dedilhado)

Don't feel lonely
 Loneliness kills all the thrill
 From standing alone
 Try to see clearly
