

Traumer - Close Your Eyes

Tom: D
Intro: Bm A Bm A G A G A (2x) Gb

Night time is falling
I wonder where are you now?
But my spirit seems to feel
A broken plan
Future is calling
And I can't stand for more
Now my pain will set on ground
Destiny shows the way
I'm still here in the dark
You took a path far of the mark
What lies beneath you'll never know
But my eyes will tell it right
Many stars up in the sky

I'm gazing them until I die
A dreamer, a human with a heart inside
But a deeper missing part
Refrão:
Above your sorrow
Where I set my dreams tonight
You come tomorrow
We will never be apart
Those days gone by
Now it's time to close your eyes
The sun will rise up in the dawn
I'm lying here all alone
In my fantasy you call my name
There's no one else to blame
