

Travis Greene - Good And Loved

tom:

D

D

G

Through your story is My fingerprint

In the valley there is confidence

In the shadow, I will be your strength

One things for sure, I am your Lord

Through the chaos I will be your Joy

When you're finished I have so much more

In the waiting, I'm an Open Door

Stand still and know, I am your Lord

They'll be times when you're up

Times when you're down

I'm never too far

Just look around and you'll find Me

I'm by your side, arms open wide

I am Good and you are Loved

I am Good and you are Loved

(G A G D)

What was and is, is covered

By the One who was and is

You're covered by Love

(I am Good and you are Loved) - repeat

(D G Bm G)

They'll be times when you're up

Times when you're down

I'm never too far

Just look around and you'll find Me

I'm by your side, arms open wide

I am Good and you are Loved

I am Good and you are Loved

If you forget, just lift your head

My banner over you is love

If you forget, just lift your head

My banner over you is love

If you forget, just lift your head

My banner over you is love

If you forget, just lift your head

My banner over you is love

My banner over you is love

So no matter what comes or goes

One thing that you must know

I am Good and your are Loved

Acordes
