

Travis - Love Will Come Through

Tom: **D**

Intro: , Verso e Refrão: **Bm G D Gb**

O pequeno solinho agudo que fica meio imperceptível durante a musica :

Bm G D Gb

If I told you a secret
You won't tell a soul
Will you hold it and
Keep it alive

Cause it's burning a hole
And I can't get to sleep
And I can't live alone
In this life

So look up, take it away

The mountain

If the world isn't turning
Your heart won't return
Anyone, anything, anyhow

So take me, don't leave me
Take me, don't leave me
Baby, love will come through
It's just waiting for you

And you stand at the crossroads

Of highroads and lowroads
And I've got a feeling
It's right

If it's real what I'm feeling
There's no make believing
The sound of the wings
Of the flight

Of a dove, take it away

The mountain

If the world isn't turning
Your heart won't return
Anyone, anything, anyhow

So take me, don't leave me
Take me, don't leave me
Baby, love will come through
It's just waiting for you

Oh, look up, take it away

If the world isn't turning
Your heart won't return
Anyone, anything, anyhow

So take me, don't leave me
Take me, don't leave me
Baby, love will come through
It's just waiting for you

Love will come through
Love will come through
Love will come through
