You're just so selfish jean
                                                              And it's good to know you know

Hey you

Threw it all away
                     A2 Am A2
By holding everything in
                                                                         C7M
Hey Jean don't rock the boat
                                                              In the morning

With a perfect understanding of the finer things in life
A quite alarming knack of knowing when to twist the knife
