(intro)

(verso)

Stuck in the storm but there's no need to mourn
 You're my roof, you're my shelter your love keeps me warm
 We sail a-way
 You and I

Oh thunder all around waves up and down
 But I hold to this song I hold to the sound
 So come what may
 You and I

(refrão)

We put the stars to shame
 What can I say
 The earth it turns but we never fade away
 Forever hold on
 Forever stay close
 All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know

You'll be All I, All I ever know

(intro)

(verso)

Ah yeah wake from my slumber
 Swallow above us
 Time falls away and the spell that we're under
 I don't fear
 You and I

As we let go of all this
 Nothing we don't miss
 Pleasure explode and the second we kiss
 Baby I don't fear
 You and I

(refrão)

We put the stars to shame
 What can I say
 The earth it turns but we never fade away
 Forever hold on
 Forever stay close
 All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know

(refrão 3)

We put the stars to shame
 What can I say
 The earth it turns but we never fade away
 Forever hold on
 Forever stay close
 All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know
 You'll be All I, All I, All I ever know
