

# Trick or Treat - Never Say Goodbye

Tom: D

Long  
 Is the way to happiness  
 I don't see the end  
 This place is full of distress  
 Moon shines in the sky tonight  
 With its light, I've no fright  
 Yes you can help me, don't go away  
 Don't be afraid, join me and I promise  
 Freedom and love forever  
 Never say goodbye  
 Believe in your dream  
 Let your heart  
 Back to being supreme  
 Don't say goodbye  
 Not far from here there's a paradise for you  
 Wait  
 My heart is filled with frost  
 I was once full of life  
 Now my courage is lost  
 I wish I could believe your words

You have to believe it hurts  
 But we will trust and will follow you  
 Escaping and running away now  
 Is our chance of freedom  
 Never say goodbye  
 Believe in your dream  
 Let your heart  
 Back to being supreme  
 Don't say goodbye  
 Not far from here there's a paradise for you  
 The storm is near, we must prepare  
 It's dangerous, I am aware  
 It can't rain all the time  
 The sun will shine again  
 Luck loves the brave and finally  
 We'll find the joy of life  
 Never say goodbye  
 Believe in your dream  
 Let your heart  
 Back to being supreme  
 Don't say goodbye  
 Not far from here there's a paradise for you
