Triskell - Empty Shack

```
Tom: G

          G           C
And then when the rain
      G
Must go away
      G           C
I was there in the ancient hall
      G           C
And then when the rain
        G       Em
Must go away
      C         C        Em          Em
I was there in the sunlight drifting

          G           C
And then when the tides
      G
Must have a change
        G           C
I was there with the darkest cloud
        G           C
And then when the tides
        G       Em
Must come again
          C       C       Em      Bm
We were calmly seeking refuge

    Em                        D
I was standing alone in the darkness
      Em            D
Crying out when I went mad
Em                      Bm    C
Feeling my soul become magic
```

```
          G           C
And then when the wind
          G
Must blow away
          G       C
I was there in an empty shack
          G       C
And then wehn the wind
          G       Em
Must blow my mind
          C                 C               Em  D
I was feeling the whole world embrace me

          Em                    D
I was standing alone in the darkness
Em                  D
Crying out when I went mad
Em                        Bm   C  Bm
Feeling my soul become magic

          Bm                  Em
Yeah my mind, an empty shack
          Bm                  Em
Yeah my mind, an empty shack
          Bm            Em          C
And I was there, yeah yeah, yeah

          Em                    D
I was standing alone in the darkness
Em                  D
Crying out when I went mad
Em                        Bm     C G
Feeling my soul become magic
```
